

Seattle City Light

Talk to Us!

- What:*** A public meeting about Seattle's energy future
- When:*** Tuesday, July 18, 5:30 – 7:00 pm
- Where:*** Bertha Knight Landes Room,
Seattle City Hall, 600 Fourth Avenue

Seattle's need for electricity is projected to grow by 450 average megawatts over the next 20 years. This is more than the combined output of the Skagit River's Newhalem, Gorge, Diablo and Ross hydroelectric plants.

*Where will we get our electric power?
Wind? Coal? Biomass? Solar? Natural Gas?*

Seattle City Light is now evaluating a range of options to meet future electricity needs.

*We want to know what you think about our future
power resources*

Come and help plan our energy future!
